

# Room Plans

Room layout requirements are as individual as the person requesting them. Our rooms are designed with flexibility in mind and all benefit from natural daylight with remotely controlled air conditioning for comfort.

The majority of our suites have built in audio visual equipment which helps to ease set-up time and minimise space loss. All suites have their own private bar making them suitable for either Conferencing or Banqueting use or a combination of both.

The key below will help you assess and plan the most suitable layout for the room and your dedicated conference and banqueting co-ordinator will be able to assist with any specific requests and bespoke layouts.
